

**JOHN INNES CENTRE
BrachyTAG
MATERIAL TRANSFER AGREEMENT
FOR RESEARCH-ONLY PURPOSES**

Provider's Name:

Dr. Philippe Vain
Department of Crop Genetics
John Innes Centre
Norwich NR4 7UH
United Kingdom

Recipient's Full Name and Address:

The Material : Seeds from *Brachypodium distachyon* T-DNA insertion line(s)

Phenotypic Designation Name:

Identifying Line(s):

Construct(s): pVec8-GFP

Mode of Transformation: *Agrobacterium tumefaciens*, disarmed

Research program: BrachyTAG

Reference: Thole V, Alves SC, Worland B, Bevan MW, Vain P (2009) A protocol for efficiently retrieving and characterising Flanking Sequence Tags (FSTs) in *Brachypodium distachyon* T-DNA insertional mutants. Nature Protocols. 4:650-661

Acceptance of this Material means the Recipient acknowledges that all rights to the Materials, whether directly or indirectly enclosed therein as well as extracts, replications, summaries, or derivatives thereof, are the sole property of the John Innes Centre, Norwich Research Park, Colney, Norwich, NR4 7UH, UK ('JIC') and are provided for academic research purposes only. The Recipient warrants not to use the Materials for any form of commercial exploitation howsoever.

This Material Transfer Agreement does not imply any direct or indirect licence or warranty whatsoever with regards to the Material and use thereof nor does it guarantee not to infringe on any rights or claims from third parties with regards to the Material or the Material's suitability, novelty or safety for any purpose whatsoever. The Recipient has no right to claim the Materials or derivatives of the Materials in any patent application made by or on behalf of the Recipient. In consideration for JIC providing the Recipient access to the Materials and the right to utilise them for, and only for, academic research, the Recipient agrees to the following conditions:

1. Not to transfer or distribute any part of the Materials or any extracts, replications, summaries, or derivatives thereof to any third party howsoever.
2. Not to use any part of the Materials or any extracts, replications, summaries, or derivatives for any other purpose than academic research.
3. To hold harmless JIC and its governors, officers, employees and agents from any and all liabilities or claims brought by third parties resulting from the transfer to and use of the Materials by the Recipient.
4. To acknowledge the BrachyTAG program as the source of the Material in any publication or presentation that may result from the Recipient's use of the Material by referencing "BrachyTAG program (Thole *et al.* 2009)" in publications and "BrachyTAG" in presentations.
5. To notify the John Innes Centre at the above address (marked for attention of the Contracts Manager) prior to use of any of the Materials provided, if there is any aspect of this Agreement which the Recipient objects to. In the absence of a specific contact from Recipient and resolution in writing from JIC with regard to such objections, the terms of this Agreement will be legally binding on Recipient, and receipt of and/or use of the Materials shall constitute binding acceptance of all of the terms hereof by Recipient.
6. This Agreement is personal to the Recipient and not capable of assignment.
7. This Agreement is subject to English Law and exclusive interpretation by the English Courts.
